RISE AGAINST HUNGER

EXPERIENCE

WELCOME TO THE **RISE AGAINST HUNGER** EXPERIENCE

Since 1998, Rise Against Hunger has been committed to providing nutrition and resources for the world's most vulnerable while simultaneously engaging and inspiring volunteers around the globe to take action. The Rise Against Hunger Experience brings to life a hands-on service event where volunteers can touch the lives of millions of people around the world in critical need by packaging meals.

OUR MEALS ARE **SHAPING FUTURES**

They may look like simple bags of rice and soy, but Rise Against Hunger meals represent the hopes and dreams of millions of people around the world. Our meals provide beneficiaries in critical need with essential nutritional components that help combat malnutrition. Once packaged by volunteers, the meals are shipped and distributed by our impact partners through schools, clinics and vocational training programs to help break the cycle of poverty and create happy, healthy futures.

MEET: **NAROVANTSOA**

Narovantsoa is 12 years old and lives with his teacher in Soamanandrany, Madagascar. On average, households in his hometown depend on an income of less than \$1 per day. Narovantsoa wants to be an entrepreneur and start his own business when he grows up.

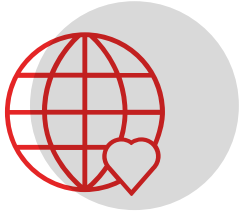

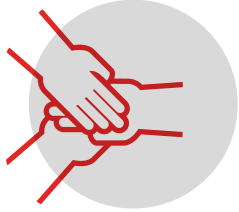

“Now that I benefit from Rise Against Hunger, I eat lunch at school and no longer feel hungry during classes.”

ENRICHING LIVES AROUND THE WORLD

This year, we plan to package and distribute over 90 million meals to shift our impact from nourishing lives to enriching beneficiaries' lives. In 2016, the United Nations introduced Sustainable Development Goal 2 (SDG #2) — recognizing the fact that it IS possible to end hunger by the year 2030; only a decade away. There is still considerable work to be done to reach this target so now is the time to get involved and act. Your group's contributions will help communities thrive and grow all the way to 2030 and beyond.

KNOW THE FACTS

- Securing adequate nutrition is essential to achieve ALL 17 of the United Nations Sustainable Development Goals, placing an urgent emphasis on achieving SDG #2 — ending hunger and malnutrition in all forms by 2030.
- Nourishing lives through school feeding programs and skills-based training motivates parents to send girls to school. According to the Food and Agricultural Organization (FAO), when women have opportunities, the yields on their farms increase — also their incomes. Natural resources are better managed, nutrition is improved and livelihoods are more secure.
- In the past year alone, over 60% of our aid went to children through school feeding programs or education based training. When a beneficiary doesn't have to think about where their next meal will come from, he or she can focus on earning an education and breaking the cycle of poverty.

SERVE LOCALLY **IMPACT GLOBALLY**
